JANUARY 2010 SALE FLYER

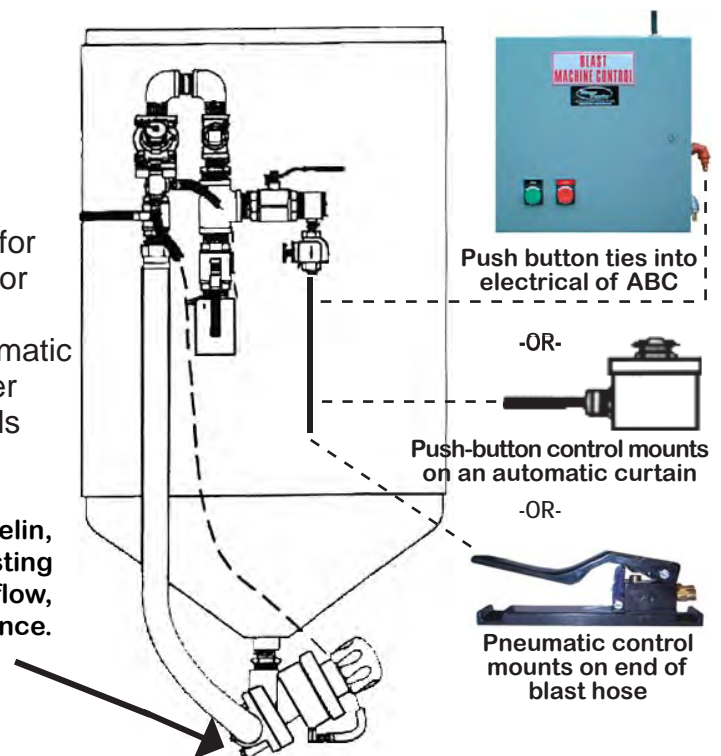

DON'T REPLACE YOUR OBSOLETE BLAST POT UPDATE IT AND SAVE!!

Convert your existing pot to the finest blasting systems available in the industry.

THE WENZCO CONVERSION KIT

- Extremely dependable operation
- Easy to maintain. Valves can be fully maintained without removing them from the pot.
- Improves safety. OSHA required "deadman" control for manual blasting operations or push-button control for automatic curtains.
- Electrical control system will integrate with your automatic curtain to shut down blasting in the event of a power failure. Push button or pneumatic deadman controls also available for manual operation.

The automatic plunger valve replaces your Ruemelin, Pangborn, or other "mixing box". It is a favorite in the blasting industry because of its infinite control over abrasive flow, instant start and stop of the blast, and ease of maintenance.

**TAPERED BORON CARBIDE NOZZLES
1/8", 3/16" & 1/4"**

Boron Carbide is second only to diamonds in hardness.

- *Longer Life
- *Lower Cost Per Use
- *Reduce Down Time
- *Maintain Efficiency

\$102.30 EACH

FLANGE VENTURI BORON CARBIDE NOZZLES 3/16" & 1/4"

Long wearing nozzles that cut up to 50% faster. The venturi design increases the velocity of the abrasive grain so it cuts faster.

\$155.93 EACH

THREADED VENTURI BORON CARBIDE NOZZLES 3/16" & 1/4"

These threaded Nozzles also have the venturi design that increases the velocity of the abrasive grain so they cut faster. They feature an all metal outer jacket to fit standard nozzle holders.

\$149.63 EACH

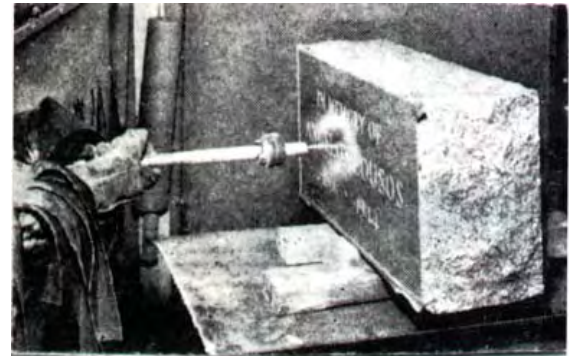

ALUMINUM OXIDE ABRASIVE

This is new virgin Aluminum Oxide, not reclaimed or recycled. It is an extremely sharp, tough, long-lasting abrasive. That means fast, clean edged lettering of monument and marker inscriptions.

No free silica means less silicosis hazard.

WENZCO SUPPLIES INC. 1250 CFM REVERSE PULSE CARTRIDGE DUST COLLECTOR

Features Include:

- 2 High efficient cartridges for filtration efficiency of 99.7% against 1/2 micron particles
- Filters are cleaned with a reverse pulse of compressed air controlled by sequential timer and solenoids.
- Filtered air can be returned to your shop in most applications.
- Abrasive resistant 8" diameter air inlet to extend filter life
- Acoustical dampering package standard with unit
- 2 HP unit designed to operate on single or 3 phase
- Attachment for 5 gal. bucket to collect dust
- Standard electrical package includes soft motor starting, ramp acceleration, digital led display, motor protection and more.
- One year warranty

\$6.50 EACH VASEBRINLO

GREEN SEALER

Green Sealer can be used as a permanent sealer and to adhere any product that is dry when applied. Seal vases, markers, slabs, crypts, etc. Reset dies and vandalized monuments. The sealer remains pliable and tacky and does not dry out. This product is not an epoxy, but can be used to hold items such as monument photos in place until epoxies dry.
