## AIR OPERATED STENCIL HAMMER

Securely attach blast stencil to the stone fast and with very little effort. Press the air operated stencil hammer against the rubber, and move it across the stencil surface. The hammering action will ensure positive contact of the stencil to the stone, avoiding the possibility of stencil lifting during blasting.

**\$232.90 HAMMST**

## AKEMI TRANSPARENT AND WATER CLEAR ADHESIVES

Polyester adhesives are easy to apply, provide a strong bond and are extremely durable. Excellent for repairing chips, filling in blast lettering mistakes or securing dies to bases. They are available Transparent (honey coloured) or Water Clear, in either a knife-grade or flowing consistency. The knife-grade is gel-like and used on vertical surfaces without running, and the flowing is a liquid that is best used on horizontal surfaces where it can flow into small areas. Sold in quart containers and includes the hardener.
