## ALLEN DATAGRAPH STENCIL CUTTERS

### MONUMENT MODEL I-536GTS

Model I-536GTS stencil cutter allows for both sprocket and friction feed. Features superb sprocket capability that can adjust from 15" to 30", with the versatility of friction feeding material from 5" to 36" wide. Can also be used to draw or pounce. This cutter is ideal for monument stencil and the unique "tangential emulation" allows the model 536 to cut perfectly square corners in heavy material. (V-lines and corners are sharp and accurate). Equipped with Allen's exclusive Gold touch cutting head, it has an unbelievable 100 steps of digitally-controlled force with force selections ranging from 5 grams to 550 grams. All cutting parameters are easily set up with a simple 2 to 3 key sequence on the full function control panel. Model 536 is compatible with the industry's leading design & layout software programs (not included).
